- Dynamic Bass Boost for deep and dramatic sound
- 2 x 10 W RMS/2 x 20 W music power

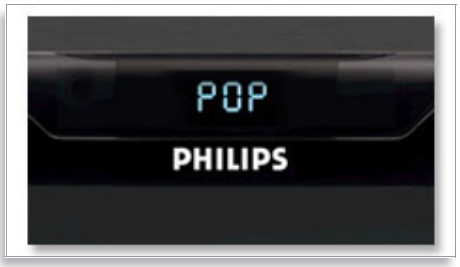
Design that blends into your interior

- Elegant design with motorised sliding front door
- Super sleek and flexible wall-mountable design

PHILIPS
sense and simplicity

Highlights

Digital Sound Control

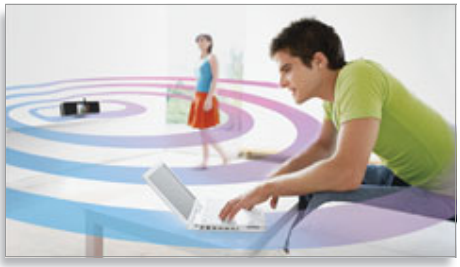


Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

LivingSound



Philips' patent-pending LivingSound vastly expands the sweet spot (the ideal listening location in your room) so you can enjoy truly immersive music over a wider area. Combining various sound processes, LivingSound recovers the richness and spatial details of the soundstage that are often lost with a compact stereo system. The effect is a larger than expected sweet spot - one that is extensively and evenly distributed around the room. Now your music enjoyment is no longer confined to the traditionally narrow area. Enjoy optimum stereo sound in a wider area.

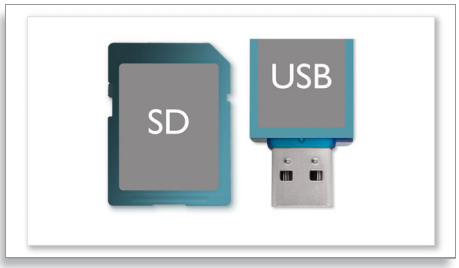
wOOx™ Technology

wOOx technology is a revolutionary loudspeaker concept that allows you to hear and feel profoundly deep bass that is richer than any other audio system. Special speaker drivers work in harmony with the wOOx bass radiator, and precise tuning between the main driver and the tweeter ensures smooth transitions from low-mid to high frequencies. Dual suspension and a totally symmetrical sandwich construction deliver low and precise base without noticeable distortion. wOOx produces exceptionally deep and dynamic bass by using the speaker box full volume to truly magnify the impact of the music.

MP3 Link for portable music

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

USB/SD/MMC music playback



Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more digital music via the built-in USB Direct and SD/MMC card slots. Simply plug your device into the USB port, or insert your memory card in the SD/MMC card slot on your Philips music system, your digital music and photos will be played directly from the device. Now you can share your favourite moments with family and friends!

Specifications

Sound
- Sound Enhancement: Digital Sound Control 4 modes, Dynamic Bass Boost, wOOx technology
- Output Power: 2 x 10 W RMS/2 x 20 W music power
- Type: LivingSound
- Volume Control: Volume Control up/down

Loudspeakers
- Built-in speakers: 4

Audio Playback
- Playback Media: CD, CD-R, CD-RW, MP3-CD, WMA-CD, SD/MMC card, USB flash drive
- Disc Playback Modes: Repeat/one/all/programme, Shuffle Play, 20-Track Programmable, Fast Forward/Reverse, Next/Previous Track Search
